Tim,

PA DEP left us alone for this project. I don't expect anything from them.

Shaun

Thanks. Do you expect anything from PA DEP or have they left you alone? I don't remember taking a look at anything from Philadelphia or Allegheny County when I was there.

Will save any other questions for later in the review.

Tim,

ACHD has had a few Right to Know Requests and Public Meetings in regard to the Invenergy AEC Permit. I would assume there will be a lot of public feedback on this application.

Shaun,

Do you have any idea if you are going to get a lot of public feedback on this application? I may tailor my comments a little differently if you are expecting significant comments. In any event, I will probably share what I have before we submit formally.

Tim,

Attached is the last modeling memo that Invenergy sent to us.
You can look at the TSD as well.

Let me know if you need any additional information.

Thanks. I downloaded the 2 zip files and did a quick check. They opened fine so I'm assuming the rest of the files are good.

One quick question. Did you include the final modeling report from the consultant in the files you gave me? I couldn't locate it on your website (maybe I missed it). I like to have that to have as a reference.

Thanks in advance and have a good weekend.

Tim,

Attached is ACHD's modeling review of the Invenergy – AEC permit. I'm going to work with our document control administrator on Friday to hopefully setup a SharePoint.

Regards,

Shaun Vozar

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

My permitting folks let me know that AEC is out for public comment. I'm contacting you to get the final modeling report and any associated modeling files to do my normal review. I've seen bits of this analysis but can't remember exactly what I've seen (too much SO2 stuff going on plus we're having system glitches that prevent me from connection to our drives remotely).

Let me know what you have and what you can get me (and how I can receive it). Thanks in advance.
